MHCC Supports Our Nurses in Fighting for a Fair Contract

April 4, 2019

The Morningside Heights Community Coalition stands with the nurses that live and work in our community and provide our care and perform vital services that impact our lives.

We believe that the demands that the nurses are fighting for are integral to the health and safety of our community. This is particularly true of the safe staffing ratios. We need enough nurses to do the job, with the correct care given only with safe and appropriate patient ratios.

Our organization, a coalition of residents, block and tenant associations, and small businesses in Morningside Heights, supports the registered nurses of the New York State Nurses Association (NYSNA) and will support them in their fight for Safe Staffing, Community Accountability and Safe & Healthy Hospitals. The health of our families and communities cannot wait.
