BLUEPRINT FOR DESIGNING A SUSTAINABLE ASO/CBO

HEALTHHIV’S REMAINING RELEVANT IN THE NEW REALITY™:

- Provides training and technical assistance to ASO/CBOs to navigate the changing healthcare landscape
- Guides organizations through encompassing, multidimensional training and technical assistance (TA) in:
  - Assessing their readiness to enact changes in mission/services
  - Developing best practices of fiscal management
  - Diversifying their business model and revenue streams
  - Implementing effective service delivery models that respond to recent biomedical advances and clinical and non-clinical service integration
  - Developing effective, strategic partnerships with other HIV prevention, care, and treatment providers to improve service delivery
  - Constructing strategic organizational development plans to sustain continuity of HIV prevention, care, and treatment for their clients
- Enhances collaboration between municipalities, officials, ASO/CBO staff, providers and others
- Provides strategies and tools that ASO/CBOs can implement to connect to the new environment

HealthHIV builds the capacity of ASO/CBOs through engagement with organization leaders to develop a customized “blueprint” training and technical assistance to build organizational capacity.
